Sean's Painting did an excellent job painting the interior and exterior of our house. The team was very professional and diligent. They completed the job on schedule and did not inconvenience my family during the project. We are very pleased with the final product and believe it has significantly increased the value of our home.

We want to take this opportunity to thank you very much for the excellent painting of our home inside and outside!

When you began this process several months' ago, we were amazed at the work you and your team performed expertly painting our inside doors, crown molding and baseboards. Then when you moved onto our 10' and 12' ceilings, as well as all the walls, we became elated with the expertise you provided in every stroke of the brush. The finished product became a "work of art" with many comments from our friends as to the excellent paint job. Fernie, who works with you, is a master of his trade as well.

The outside of our home was done in the same outstanding manner. We are more than pleased with the finished product and commend you and your team for your exceptional work.

We want to mention how you take pride in your work, too. You even returned to touch up areas after we moved in with all our belongings.

Please feel free to use us as a reference when needed. Your work is incomparable, and we can't thank you enough!

Wow! What a great experience working with Sean and his crew. We just bought a home out here in San Diego and Sean was able to deliver on short notice with awesome quality! Sean's crew really did a nice job on the exterior of our home. They have made the house

look brand new again! Sean's crew also did a wonderful job on our interior including their spray lacquer, oils and latex. We had three bedrooms redone from top to bottom. The trim and crown work especially is top quality!  
Bottom line, Sean is one of the best contractors I've had the pleasure of working with and look forward to using on our next home improvement project!

Sean's Painting did a great job! We had a very tight timeframe to get the work done, and they were so accommodating, while still maintaining quality.
